Apollo Stereo • NSA at Manchester

Special Thanks for Special Help

I've just assumed the presidency of the NSA, replacing Tom Rogers who is off to England for a couple of years of graduate study. One of my first and most pleasant tasks is to thank all who have donated so generously. On behalf of all the volunteer workers who give their time and energy to keeping the NSA going, our sincere thanks for your very kind support. This help has made it possible for us to again avoid an increase in dues while still carrying out our many programs.

We also have a new Vice President of Activities, John Waldsmith, and a new treasurer, Robin Wheeler. Working together with these new officers and the old guard, we hope to make the NSA an even bigger and better organization.

The NSA was formed to help better understand, preserve and promote the antique stereograph but with our continued growth to over 2800 members, the membership in current stereo interest has exceeded those who collect the older views. I feel there is room in our organization to promote *all* types of 3-D, no matter what form. It is my intention to get our regional meetings more active once again, with more regularity.

Many of you in the past have been good enough to write to the officers suggesting changes and improvements, and I hope you will continue to feel free to write to me. Only if we know what you want from YOUR society can we make it more useful and interesting. Thanks again for your support.

Gordon D. Hoffman

Front Cover:

This hand-held sequential stereo pair was taken through a tiny spacecraft window during a lunar orbit rendezvous exercise by an Apollo 10 astronaut. The feature "The Apollo Stereo Record" by Leon Kosofsky is comprised of two articles which first appeared in the PSA Journal in the early 1970s.
