3D Assignment

WHEELS to Roll Longer

Due to the late publication dates of *Stereo World* issues following our 20th anniversary color issue (Vol. 21 No. 1), the Assignment "Wheels" has been extended. The new deadline is March 7, 1995. This in effect makes "Wheels" a full year project and should allow those with interesting ideas more time to do some shooting. Others may have images in their files that simply need to be dug out and mailed. Judging from the submissions already received, the potential variety of "wheel" images is truly impressive - as are the imaginations and skills of readers who have sent in some fascinating views. This made the decision to extend the assignment easy. It seems to inspired several creative efforts, and besides, we want to see more!

Current Assignment: "Wheels"

This isn't limited to rustic wagon wheels being used as fences or the chrome hubcaps of overly customized hot rods. Anything that moves on, under or by wheels is fair game here, including cars, trains, unicycles, pretzel carts, skate boards, etc. Things like large pulleys or tiny watch parts would also be eligible, as would spherical rolling devices like ball bearings or

"Tie-Dye-Wearing Tricyclist" by Kevin W. Sanders of Eugene, OR was taken during the Eugene Celebration in September, 1993. The pair was printed using the outer two images from a Nishika Camera.

the ball on the underside of a computer mouse. The wheels themselves would not have to be the center of interest in views of things like vehicles, but a close-up of just a windshield wiper on a 1938 Plymouth probably wouldn't be in the spirit of things. Deadline for entries has been extended to March 7, 1995.

The Rules:

As space allows (and depending on the response) judges will select for publication in each issue at least two of the best views submitted by press time. Rather than tag images as first, second or third place winners, the idea will be to present as many good stereographs as possible from among those submitted.

Prizes are limited to the worldwide fame and glory resulting from the publication of your work. Anyone and any image in any

(Continued on page 25)

"Tank" by Jim Dusen of Batavia, NY reminds us that even vehicles with tracks require wheels to operate. This sequential pair was taken with a Nikon N8008 on T-Max 100 film at the Wings of Eagles airshow in Batavia.
